

## PHILMONT SCOUT RANCH

---

### COVID-19 PRE-TRAVEL SCREENING

---

All staff and participants should review this checklist at least 30 days prior to their trip and must use it to pre-screen themselves and/or their crew on the day they begin travel to Philmont. Crews should remind the entire group that “A scout is Trustworthy”, and one person who becomes ill could cause their entire crew to miss their Philmont experience.

A similar screening will be performed upon arrival at Philmont.

**1. Have you been vaccinated against COVID-19?**

- a. Yes: go to question 4
- b. No: you MUST present proof of a negative COVID test taken within the last 7 days OR a physician’s certification you have recovered from COVID within the last 6 months; go to question 2

**2. Have you been in close contact with anyone diagnosed with or under investigation for COVID 19 or other communicable disease in the last 10 days?**

- a. Yes: do NOT come to Philmont; stay home.
- b. No: go to question 3

**3. Have you, or anyone you have been in close contact with, traveled internationally in the last 14 days? [CDC guidance on negative COVID test before and after travel?]**

- a. Yes: do NOT come to Philmont; stay home.
- b. No: go to question 4

**4. Have you or anyone in your household experienced any new or worsening symptoms from the list below at any time within the last 7 days?**

Shortness of Breath	Unexplained fatigue
Cough	Headache
New loss of smell or taste	Sore throat
Fever 100.0	Nausea or Vomiting
Flu-like symptoms	Diarrhea

- a. Yes: do NOT come to Philmont; stay home.
- b. No: go to question 5

**5. Have been hospitalized with COVID-19 since Jan 1, 2020?**

- a. Yes: you MUST have a Philmont Return to Activity waiver signed by your provider before attending Philmont.
- b. No: go to question 6

**6. Have you tested positive for COVID in the last 6 months?**

- a. Yes: Philmont recommends you be cleared by their physician for strenuous exertion at high elevation. Note: if you have not been vaccinated against COVID, you may also need to provide a physician’s certification you have recovered from COVID within the last 6 months in lieu of a negative COVID test.
- b. No: go to question 7

**7. Are you in any of the higher-risk categories as defined by the CDC guideline: COVID Risk Categories?**

- a. Yes: Philmont recommends you consult our primary care provider about living and participating in activities in a high elevation environment and be cleared for participation in Philmont programs.
- b. No: Welcome to Philmont!
