

---

# 2021 PARTICIPANT CODE OF CONDUCT

---

To ensure a healthy Philmont experience for everyone I will:

- Present a negative COVID-19 test within 3-5 (but not more than 7) days OR proof of vaccination completed within 14 days of arrival at Philmont.
- Cooperate with all on-site medical screenings in addition to reviewing Philmont’s Pre-Travel Screening form.
- Understand the signs and symptoms of COVID-19 and truthfully report to my Crew Advisor, Supervisor, or a member of the Philmont medical staff if I or anyone in my cohort is exhibiting those symptoms.
- Check on my fellow crew members, family members, and coworkers if I suspect they are not feeling well.
- Wear a multi-layered, tight fitting face mask that covers the nose and mouth whenever I am around those outside my cohort or family group. Recognize that bandanas, gaiters, and buffs are ineffective facial coverings and will not be allowed.
- Wash my hands with soap and water as often as I can, especially before eating, after using the restroom, or being in public spaces. I will use an alcohol-based hand sanitizer when soap and water are not available.
- Cover my mouth and nose with a tissue or my elbow when I cough or sneeze and wash my hands afterward.
- Avoid shaking hands and embrace the elbow bump.
- Avoid sharing food, gear, or water bottles.
- Keep a 6-foot distance between myself and others when possible. Keep a 6-foot distance between other cohorts while at camp and on the trail.

Please sign and submit this form during the check-in process upon your arrival to Philmont.
